# KURUMALLA RAJITHA

Civil Engineering Graduate | Trainee Tekla Detailer

rajithakurumalla@gmail.com +91 7288024088 Jaddangi, Andhra Pradesh

linkedin.com/in/rajitha-kurumalla

## Professional Summary

Civil Engineering graduate with project-based training in Tekla Structures and BIM, with exposure to 3D modelling of steel frames and multi-storey buildings. Familiar with AutoCAD, Revit, ETABS and STAAD.Pro. Seeking an entry-level opportunity in structural detailing and BIM.

## Education

**B.Tech, Civil Engineering,** *Aditya Engineering College* 2022 – 2026
CGPA: 7.62

**Intermediate (MPC),** *Madhuri Junior College* 2020 – 2022
75%

**SSC,** *ZPHS Jaddangi* 2019 – 2020
96%

## Technical Skills

**Tekla**
Tekla Structures, basic 3D structural modelling, model visualisation.

**Structural Analysis**
ETABS, STAAD.Pro,Tekla Structural Designer.

**General Tools**
Microsoft Word, Excel, PowerPoint

**Drafting & BIM**
AutoCAD, Revit, BIM fundamentals, SketchUp

**Civil Engineering**
Structural detailing fundamentals, concrete testing concepts, crack detection, structural health monitoring

## Tekla Structures & Modelling Exposure

**Structural Design and Analysis Using Tekla Structures,** *Vaanahaa Education and Innovation Labs* 09/2025
Project-Based Learning 40 hours

- Completed 40 hours of project-based learning in Tekla Structures, gaining exposure to 3D modelling of steel frames and multi-storey buildings.
- Familiar with structural components such as beams, columns, roof framing, and bracing, along with basic model visualisation and analysis result interpretation.

## Internship

**Structural Integrity Monitoring & Crack Detection Intern,** *Aditya University* 05/2025 – 06/2025

- Completed an eight-week internship focused on crack detection, structural health monitoring.
- Studied crack patterns and failure behaviour in reinforced-concrete structures.

## Academic Project

**Strength and Crack Behaviour of Reinforced Concrete Beams with Glass Fibre Reinforcement**

- Studied strength and crack behaviour of concrete with varying glass-fibre proportions.
- Identified 1% glass-fibre content as the best-performing proportion based on the project results.

## Additional Training & Membership

**AutoCAD Essentials Course for Complete Beginners** 09/2026
SourceCAD / LinkedIn Learning

**Building Information Modelling in Architecture, Engineering and Construction** 02/2024 – 08/2024
L&T EduTech

**Structural Analysis Using ETABS** 09/2024 – 10/2024
APSSDC, Aditya University

**3D Modelling Using SketchUp** 08/2023
Sreshta Engineers / Aditya Engineering College

**Indian Concrete Institute (ICI)** 10/2023 – 09/2026
Student Member
